

BIG FIELD OF FLAME  
SWEEPS GREEN BAYA GREAT CONFLAGRATION  
RAGED YESTERDAY.

Blaze Started By Sparks From Racing Tugs Causes a Loss of \$123,000.—Immense Plant of the Murphy Lumber Company Destroyed—Insurance Will Foot Up About \$95,000

Green Bay, Wis., Oct. 8.—Two tug captains, alleged to have raced near the mouth of the river yesterday morning, are believed to have been the cause of a fire at the immense plant of the Murphy Lumber company, causing a loss of \$123,000, distributed as follows: Six million feet of lumber, \$96,000; slabs, covering an area of twenty acres, \$9,000; dry kiln, \$2,000; barn, \$3,000; office building, \$2,000; 1,000 feet of wharf, built far out into the river, \$8,000; tramways, etc., \$2,000. Another estimate places the loss on wharf at \$15,000, making the total loss \$130,000.

The fire started at 11 o'clock a. m. and at 7 o'clock p. m. the whole east side of Green Bay seemed doomed to destruction. At 9 p. m. the fire had gone down somewhat and the terrible anxiety of thousands of people was somewhat allayed. The conflagration was started in the lumber piles on the docks by sparks from passing boats, which lodged among dry boards. At that time a stiff breeze was blowing from due west and soon fanned the blaze. A few minutes later the smoke was noticed and the danger was realized.

When the fire department reached the mill plant, a mile north from the city, in what is known as "Muskkrat City," the extent of the blaze was seen. The velocity of the wind increased at a fearful rate, and soon a gale was blowing. Long sheets of flames leaped from the wharves over the bare space where formerly the mill and machine shops had stood, which burned a few weeks ago and caused a property loss of nearly \$90,000.

The Murphy plant covers an area of seventy-two acres, formerly swamp lands, but now filled up with slabs and decayed wood, shavings and sawdust. Thus, the very ground was a bed of fire, spreading onward to the east, 300 feet from the former mill site, where endless rows of piles of slabs began. It was the work of an instant for the flames to lodge in them.

The Murphy Lumber Company had a splendid private water equipment, not being connected with the city service, and streams began to play from all sides. But they looked like silk threads in volume compared to that of the flames. All efforts to check the progress of the leaping sheets of fire proved ineffective. Ten minutes after the slabs began to burn nearly 3,000 cords of them were blazing, sending huge billows of sparks into the vast stretch of prairie grass further to the east.

The Chicago, Milwaukee and St. Paul and Kewaunee railroads sent locomotives for the purpose of helping to pull down the lumber, but the terrific heat and smoke stopped all this work. Westward of the lumber stood the office building and huge barns. One steamer was dispatched toward the river shore and once more the uneven fight with the fiery element was taken up.

By 4 p. m. the wind had become a stiff norther and all the lumber was blazing fiercely. Burning pieces of slabs and boards were carried half a mile and more. The crews of the Green Bay planing mill, Dobry's planing mill, the Weisheit Table Factory, Britton's extensive cooperage works, and other establishments were called out and began to throw water over all the buildings and property. Nevertheless, several incipient blazes started in the city.

Green Bay's streets filled with smoke and cinders, thus adding to the general anxiety. When the wind shifted to the north, the flames cut off the retreat of sixty people who watched the progress of the fire from an office building, as well as a part of the fire department working there. Their perilous position being recognized, tugs were sent down to get them.

Real estate in Muskrat City will be greatly affected. Lots worth \$50 a week ago can be bought for \$5. The calamity for Green Bay, by reason of the fire, is great. The insurance will aggregate \$95,000. Of this \$12,000 is on wharves and tramways, as follows: Palatine, Manchester, \$1,500; Liverpool and London and Globe, \$500; Manchester, England, \$2,000; Hanover, New York, \$500; Germania, Freeport, \$1,500; North British and Mercantile, \$500; Caledonian, \$500; London and Lancashire, \$2,500; National of Hartford, \$500; Springfield Fire and Marine, \$2,500.

**Spring Valley Case Transferred.**  
Princeton, Ill., Oct. 8.—The case against Mayor Delmargo, of Spring Valley, who is charged with failing to make an effort to suppress the recent riots, was called in the county courts here yesterday, and upon the presentation of an affidavit by the defense a change of venue was taken to the circuit court. The case cannot now be heard before December.

**Mahone's End Approaching.**  
Washington, Oct. 8.—Ex-Senator Mahone, of Virginia, who appeared to be slightly better this morning, failed again during the day, and his physicians express the opinion that the end is very near.

## DISCUSS CONSTITUTION.

Episcopal Convention Begins Its Second Week.

Minneapolis, Minn., Oct. 8.—The first day of the second week of the Episcopal triennial convention was given up by the house of deputies to a discussion of the revised constitution. The chair announced that the business in order was the resolution of George R. Fairbanks, of Florida, which provided for the division of dioceses under certain conditions and the erection of missionary jurisdiction out of the ceded territory. This has been done, but, it is claimed, not constitutionally. The measure is of course favored by the dioceses having weak territory and opposed by the richer and older dioceses, whose contributions form the large part of the income of the board of missions. The matter was finally referred to the committee on amendments to the constitution, with instructions to report at the earliest possible moment. Dr. Hoffman called for the order of the whole. After a warm discussion on the Harrison amendment, making it incumbent upon both houses to give the reason for rejecting legislation, it was defeated, and the original Biddle amendment was also defeated. One amendment after another was voted down and a sentiment is growing in favor of recommitting the whole constitution to a new committee.

Applications for the holding of the next convention in Louisville, in Atlanta, and in Boston were presented by the bishops, respectively, of these sees and referred to a committee consisting of the bishops of Kentucky, Chicago, New York, Georgia, and Massachusetts.

The central committee of the Woman's auxiliary met at St. Mark's guild room. The general secretary reported contributions coming in constantly for the united offering and that it would be kept open during the convention. The present gathering is the largest in the history of the auxiliary, 168 delegates being present last Thursday in St. Paul and 103 yesterday.

The deputies spent the entire afternoon in debate and the only action on record is that they decided hereafter to call an assistant bishop, bishop coadjutor. This is in accordance with the desires of the revision commission coadjutor. Another debate ensued over the question of selecting a term by which the head of the house of bishops should be known. At present he is called presiding bishop and holds office through seniority. The revised version calls him a primus and has him elected.

## HAD BEEN CONDEMNED.

Contractor at Lorain, Ohio, Admits His Responsibility.

Lorain, Ohio, Oct. 8.—Contractor Jacob Meyers admits that the building committee of St. Mary's church, where Sunday's accident occurred, condemned the temporary structure which he had erected and on which was to assemble the multitude of people to hear the services attendant upon the laying of the corner stone, but he says it was built for his own convenience, and not for the public. He has not been taken into custody yet. No additional deaths have occurred, but physicians have little hope for the recovery of several of the injured, among them are Mrs. Kate Diedrich, who was hurt internally and had both legs broken; Mrs. Jacob Keefner, who had a leg amputated and was hurt internally; Nicholas Wagner, whose skull was fractured; Mrs. William Burgett, whose spine was injured, and John Eustis, who was hurt internally. The scene of the wreck was visited by hundreds of people yesterday. Workmen have removed the debris, and some of it is being gathered as relics of the accident.

## Wisconsin Baptist Convention.

Racine, Wis., Oct. 8.—The Wisconsin Baptist state convention convened in this city yesterday and nearly 400 ministers are present. The convention commenced with a meeting of the board of managers, report of missionaries, annual report, etc. The session will continue all the week. The annual report shows that much good work has been done this year, but the figures have not been made public. The eighteenth annual meeting of the Woman's Baptist Foreign Missionary Society of Wisconsin will also be held, beginning today.

## Pittsburg Official Short \$50,000.

Pittsburg, Pa., Oct. 8.—The Council committee investigating the city attorney's office received itemized statements from two banks yesterday, which show the Assistant City Attorney W. H. House has received, in the past ten years, on city deposits, interest to the amount of \$29,319, of which no apparent record is made. There is one more bank to hear from, which will probably run the amount up to \$50,000. Mr. House as yet will say nothing in his defense.

## Fire Brought Under Control.

Princeton, Ill., Oct. 8.—The fire which has been raging in mine No. 1 of the Spring Valley Coal Company the last two days was placed under control yesterday after a loss of over \$30,000.

## Gov. Waite Will Talk in Kansas.

Topeka, Kan., Oct. 8.—Chairman John W. Breidenthal, of the populist state central committee, yesterday received a letter from ex-Governor Waite of Colorado notifying him that he would arrive here Oct. 17 to spend a week making speeches in the Kansas campaign.

FELL FOUR STORIES  
IN THE ELEVATOR

## FOUR PEOPLE HURT AT CHICAGO TODAY.

Accident Occurred in the building 323 Franklin Street and Two of The Victims Will Die—Two Boys Killed at a Crossing—Nine Street Car Passengers Beaten By Thieves.

Chicago, Oct. 8.—The elevator in a building at 323 Franklin street fell four stories this morning. Four people were injured and two of them will die.

Chicago, Oct. 8.—While crossing the Chicago, Milwaukee and St. Paul tracks in a buggy about 6:30 o'clock last evening Louis Winkelman, well-to-do farmer of the town of Leyden, and his two sons were struck by a train. The boys were so badly injured that they died about 9:30 o'clock at the county hospital. Mr. Winkelman was cut about the head, but will recover.

Chicago, Oct. 8.—Four masked desperadoes held up an electric car on the Chicago and North Shore Suburban line at 8:25 o'clock last night, and at the point of revolvers compelled the passengers to part with their valuables. Following were some of the passengers:

Johnson, N. O. G., real estate dealer of Galesburg, Ill.; struck under the eye and badly cut with a cane; robbed of a watch valued at \$125 and \$8 in money.

Johnson, Mrs. N. O. G., Galesburg, Ill.; concealed diamond rings in her bosom and escaped with them.

Laubenheimer, Miss, residence North Clark street, near Indian boundary line; badly frightened and suffering from nervous shock.

Lunbach, Charles, 1310 Greenleaf avenue, Evanston; robbed of \$3.

Merriman, J. O., motorman, living in Edgewater; deafened by shot fired close to his ear.

Nisbett, T. P., 1043 Hinman avenue, Evanston; shot through the thigh and badly injured; robbed of a gold watch and small sum of money.

Osborne, William, conductor, living in Edgewater; robbed of small sum of money.

Voightmann, Frank, 2717 Charlton avenue, Edgewater; robbed of \$45 and a gold watch and chain.

Westman, A. E., 2245 Southport avenue, real estate dealer, 73 Dearborn street; cut by blow of a cane and robbed of \$8.

Resistance was offered by some of the passengers, and T. P. Nisbett, of 1043 Hinman avenue, Evanston, was shot through the leg. Other passengers were clubbed into submission, and the desperadoes took everything of value in sight. Watches, jewelry and money were handed over, and when the transfer was not made quickly enough it was enforced with the butt end of revolvers or canes. Blood flowed freely, and the car floor was spattered with crimson stains. Most of the passengers submitted quietly to being robbed. The assault lasted about four minutes, after which the robbers took to their heels, carrying their booty. They were doubly protected from detection by masks and blackened faces. Two of them got on the front platform and three on the rear. Conductor and motorman were overpowered, the trolley was pulled down as far as possible and the rope cut, letting it fly up in the air beyond the wire. To make assurance doubly sure the motor crank was wrenched off and thrown away, and the car was effectually stalled. Three patrol wagons loaded with police officers were at once started in hot pursuit, but the robbers had a good start.

## Fail to Hold Up a Train.

Kalamazoo, Mich., Oct. 8.—Would-be train robbers filled the engine of a north-bound passenger train on the Grand Rapids and Indiana railroad full of bullets at 7:30 o'clock last night in a dense woods three miles north of this city. Four men were seen on the track by the engineer, and a volley of bullets was fired immediately after. One shot smashed the headlight and the other shots made splinters of the woodwork of the cab. Instead of obeying the order to stop, the engineer pulled the throttle wide open and the train went ahead. No more shots were fired. The passengers knew nothing of the affair till an hour afterward.

## Farmers Organize for Protection.

Cleveland, Ohio, Oct. 8.—A unique organization, the American Protective association, has been incorporated, with headquarters in this city, by N. S. Amstutz, a well-known electrical inventor, and half a dozen farmers. Its object is the protection of farmers from the railroad companies. Farmers complain that if they are not well-to-do and influential they are unable to obtain redress when fences, barns and haystacks are burned and cattle killed by the railroads. The association proposes to embrace farmers, establish a fund by means of annual dues, and keep in its employ attorneys to present all such cases in court.

## Smith Sentenced to Death.

Decatur, Ill., Oct. 8.—Charles N. Smith, who murdered his daughter, Louise Smith, and sister-in-law, Edna Buchert, nine days ago and pleaded guilty before Judge Vail last Thursday, was sentenced to be hanged on Friday.

BODIES TAKEN FROM  
THE PIT OF DEATH

## WORK OF RESCUE GOING ON AT WILKSBARRE.

Remains of The Three Engineers and the Fire Boss Were Recovered This Morning—Eight Men Lost Their Lives and Two Were Fatally Burned.

Wilkesbarre, Pa., Oct. 8.—The bodies of the three engineers and the fire boss were taken from the Dorrner mine this morning. The mine was operated by the Lehigh Valley Coal Company, and in the explosion eight men lost their lives, and two were fatally injured. The dead are:

WILLIAM L. JONES, mining engineer, aged 21, Wilkesbarre.

WILLIAM CAHILL, mining engineer, aged 20, Wilkesbarre.

LEWELLYN OWENS, mining engineer, aged 24, Pittston.

DANIEL DAVIS, fire boss, aged 3.

Three unknown men, probably Hungarian laborers.

MICHAEL MOSS, one of the miners, died at the hospital.

The injured men are:

Robert Blanchard, aged 19.

William Miller, aged 21.

George Laffy.

Joseph Murphy.

Miller and Blanchard are so badly burned that they cannot live. Blanchard thinks one of the engineers, or perhaps the fire boss, set fire to a body of gas in the old workings. When Blanchard was found he was being slowly roasted to death. The gas had slowly set fire to his clothes, and they had almost been burned off his body when the rescuers came upon him. Miller, with his broken arms, could render him no assistance, and Blanchard was so pinned down by the debris that he could make no use of his hands.

## MORE RIOTING FEARED.

Fresh Outbreaks Looked for at Constantinople.

Constantinople, Oct. 6, via Sofia, Oct. 8.—The representatives of the six powers have sent a collective note to the Turkish government calling attention to the inadequate measures taken by the police authorities to maintain public tranquility in Constantinople and its suburbs, and demanding the prompt institution of a rigorous inquiry into the recent rioting, bloodshed and wholesale imprisonment of Armenians here. In addition the powers demand the release of all prisoners who are innocent of wrongdoing and the cessation of arrests. There have been no further excesses, however, although a feeling of great disquiet still prevails, and fresh demonstrations upon the part of the Armenians are feared. The Armenians, who are still inside the Patriarchate Church here, in which they sought refuge after the rioting of Monday last, fired some shots at noon yesterday, and it was feared that another outbreak was imminent. The police watching the building promptly notified the military authorities, and a strong force of troops was sent to the spot. The soldiers immediately blocked all the adjacent streets.

## WORKING FOR HINSHAW.

His Attorneys Secure Affidavits as to Conduct of Jurymen.

Danville, Ind., Oct. 8.—An Indianapolis merchant has written Hinshaw's attorneys here that he was kept informed of the trial and the actions and opinion of the jury by one of the jurymen. A barber of West Indianapolis says that a few weeks before the trial one of the jurors told him in his shop that he was convinced Hinshaw was guilty, and nothing could change his opinion. Hogate and Parker, Hinshaw's attorneys, have canvassed the county and secured over seventy affidavits regarding the juror's conduct both before and after the trial, which they say are strong evidence. One juror is said to have stated that if Hinshaw had not been convicted he would have been mobbed that night, and acknowledged that this influenced him.

## Many New Measures Proposed.

Elgin, Ill., Oct. 8.—With Bishop Horn in the chair, the fourth day's session of the evangelical general conference began yesterday. There is under consideration a proposition to organize a fire insurance company for the entire church. A number of conferences have such for their own territory. Another measure proposed is to organize a church building society for the denomination. The committee on revision reported adversely on the recommendation that presiding elders be eligible for only two consecutive terms. The conference will, no doubt, adopt the report, as no minority report was submitted. This will leave the eldership terms indefinite. The committee also reported against the recommendation that a rule be incorporated into the discipline prohibiting members from joining secret societies. This report also is expected to be approved.

## Five of the Crew Drowned.

Havana, Oct. 8.—The Spanish bark Joven Lola has been wrecked near Rosario, on the Colorado reefs. Five of her crew were drowned, but the captain succeeded in swimming ashore.

## FRENCH GAIN A VICTORY.

Paris, Oct. 8.—The government has been notified that the French forces captured Antanavario Capital. The queen and the ministers of state escaped.

## DISTURBANCES IN ARMENIA

Constantinople, Oct. 8.—Serious disturbances have broken out at Sivas, Van and Bittes in Armenia.

## 400 MET DEATH IN THE FLOOD

Moscow, Oct. 8.—Four hundred people were drowned by the capsizing of a raft in the river Oka.

## SENATOR MAHONE IS DEAD.

Washington, Oct. 8.—Senator Mahone died at one o'clock.

## Once More In the Arena

Is our friend Mr. Lowell, the man who never sleeps. This time, as will be seen by the large ad of tonight, he has purchased \$14,269.41 worth of shoes. Over 6,500 pairs are to be ruthlessly slaughtered, and the altar will be opened Saturday morning at the well-known Annex. The store next the Annex has been leased and the two are being connected by an archway. The stock of shoes includes well known factory makes such as Marzuff's, Richardson, Norcross & Co's., Carroll, etc., and an opportunity of buying shoes cheap such as have been offered Janesville people before will be opened Saturday. Lowell has never advertised a thing he does not have, neither has he given a price he will not stand back of and that's the reason he does a big business. This sale of shoes will eclipse any former effort. If you are near sighted get a pair of glasses or else have your friends read Lowell's prices and announcements to you that will appear from now on and don't fail to visit the Annex.

## We Are Selling

Many jackets and capes for ladies and misses. In fact we are more than pleased with the way ladies have appreciated the style, finish, fit and workmanship of the goods. The lady who likes to look at beautiful garments, whether she wishes to buy or not, will make an error if she does not come to our store. Bort, Bailey & Company.

## We Have

A stock of underwear for the people around this part of the country that will surprise them. Our line has been complete all along and yesterday we received another supply of mens, women, and children's underclothing that makes it large enough to care for every one. Don't fail to get your prices. Lowell's Annex.

## Many Men

At work setting up storage and new stoves in fact we have as large a force of men as we can well take care of, they are very busy all the time. If every one of our four hundred people wanted their stoves at the same time what would we or they do. Get your stove up at once don't wait. Lowell Hardware Co.

## James Caldwell's Auction Sale.

James Caldwell who is moving to this city with his family will have an auction sale on his farm north of town on the Indian Ford road, Tuesday, Oct. 15. Bills have been published by the Gazette giving a full list of stock, crops and machinery. W. T. Dooley will be auctioneer.

## All Wool Serges.

36 inch all wool serges that drape and finish as smooth as the 75 cents grade, in shades of brown, blue, green, white and black for only 25 cents a yard. They are easily worth 37 1/2 cents a yard. Ladies who want a medium priced all wool dress should not fail to see the line. Bort, Bailey & Co.

## Like Giving You \$2.75.

For the balance of this week we will sell a complete dinner set of 100 pieces of English slim porcelain, in three different decorations for \$5.75. They usually cost \$8.50. That's a reduction of \$2.75 on the set. Isn't that a bargain? Lowell's Annex.

## Another Case

O' fifty pieces of those heavy outing flannels at six and one fourth cents. Just think for warm night dresses. The material is fluffy and nice and the cost makes the article a cheap one Bort, Bailey & Co.

## For Men and Boys.

We have a complete line of mittens and gloves, all weights, for men and boys. We save them money, also; don't forget that. Lowell's Annex.

## Cloaks

Go to T. P. Burns for winter cloaks.

## BRIEF CITY NEWS NOTES

FREE SILVER DEMS  
SELECT MANAGERSWHITE METAL COMMITTEE  
MEET AT COLUMBUS.

Alfred Whittaker, W. W. Durbin and Allen W. Thurman Were this Morning Named as the Men to Take Charge of the Campaign in The Buckeye State.

Columbus, O. Oct. 8.—At the meeting of the state central committee of free silver democrats, this morning, Alfred Whittaker of Cleveland, W. W. Durbin of Kenton, and Allen W. Thurman were elected as an executive committee to conduct the campaign.

Columbus, Ohio, Oct. 8.—The free silver democrats have declared war on Senator Brice, and a revision committee of white metal conferences will issue a circular letter to the democrats of Ohio asking them to support the ticket nominated at Springfield, but to oppose all candidates for the assembly who are not willing to pledge themselves to vote against a gold standard or sound money democracy for senator. It is claimed that ex-Gov. Campbell is a gold standard man and will not endorse the position taken.

## DURRANT WILL TESTIFY.

Final Effort of the Defense in This Famous Case.

San Francisco, Cal., Oct. 8.—On the opening of the eleventh week of the Durrant trial to-day the defense will make a final struggle to break down the testimony of the prosecution. A few more students will be called to the stand, several additional citizens will testify to Durrant's excellent reputation, and the defendant himself will be called to the witness stand. It is understood the defendant's testimony will be guardedly given for the purpose of shutting off cross-examination by the district attorney. Under the law as laid down by the Supreme court of the state a witness cannot be cross-examined except upon actual matters brought out upon direct examination.

Thursday Attorney Deprey will close the case for the defense; Friday and Monday will be occupied by District Attorney Barnes in rebuttal; Tuesday will be passed in further rebuttal; Wednesday the opening argument of the prosecution will be made; and Thursday, Friday and Monday the closing efforts of the defense will be made.

## EIGHTEEN WERE KILLED.

Belgian Railroad Accident Worse Than at First Reported.

Brussels, Oct. 8.—Dispatches received here from Wavre, fifteen miles from this city, where the collision between a crowded passenger train and an engine occurred Sunday evening, show that eighteen instead of ten persons were killed and that 100 persons, and not forty, were injured. Several of the wounded people are so seriously injured that their lives are despaired of. There are no Americans among the dead or injured. Relief gangs and medical assistance were promptly sent to the scene of the accident from all neighboring points and everything possible was done to succor the wounded, at least thirty of whom were in need of prompt assistance. Among the passengers aboard the train were M. Beernaert, president of the chamber of deputies, and his family. None of them sustained serious injuries and the president was unhurt. Mme. Mourlou, wife of the well-known engineer, was among the killed.

## Banks to Reduce Capital Stock.

New York, Oct. 8.—A movement which promises to become more or less general among large financial institutions will be inaugurated at the annual meeting of the stockholders of the Bank of America. It is proposed to reduce the capital stock from \$3,000,000 to \$1,500,000 by surrendering half of the stock at par. This action is recommended, inasmuch as the remaining capital, together with the existing surplus, will be ample for the conduct of the business, while the scaling of the capital stock will effect a saving of \$300,000 a year in taxes. Three other large banks will follow the same course during the present year.

## Indictment Against Wagner.

St. Joseph, Mo., Oct. 8.—The grand jury yesterday returned three indictments against Dominick Wagner, the priest. The grand jury is now investigating charges of embezzlement preferred against the priest by members of his congregation. The three indictments will probably be nolle prossed, the priest having married the girl Saturday night, and she cannot be compelled to appear against her husband. Wagner will likely be prosecuted on the charge of embezzlement, however, as the experts who examined the books of the parish say there is a shortage of \$2,000.

## To Try Col. Coit.

Circleville, Ohio, Oct. 8.—The case of the state against Colonel A. B. Coit, charged with manslaughter, was called by Judge Walters in Common Pleas court yesterday morning. There are 139 witnesses subpoenaed. In less than three hours a jury was secured. The jury went to Washington this morning to view the scene of the riot.

## OAK LAWN HOSPITAL TO GET CITY AID

THE COUNCIL APPROPRIATES  
\$500 PER ANNUM.

Committees Named To Investigate the New Charter—Water Committee, Make a Report—Oil Lamps to Burn On—The Roller Paid For—Much Other Business Done.

It was a busy session that the council held last evening. Mayor Baines presided and all the aldermen were present. After roll call and reading of the minutes they voted to appropriate \$500 per annum to the Oak Lawn Hospital; they made arrangements to run the oil lamps until Capt. Norcross could get the arc lights started; the committee having the suit against the water company in charge made a lengthy report; the steam roller was ordered paid for; a committee of citizens and aldermen was appointed to investigate the uniform charter and report and a large amount of miscellaneous and routine work was done.

The municipal court and city treasurer reports were received and read and the appointment of Walter Houghton as a police officer for three months was confirmed. A communication from J. H. Gateley in regard to a drinking fountain at the corner of Milton and Milwaukee avenue being a detriment to him was received after which the matter was referred to the fire and water committee. Mr. Gateley's notice that he would hold the city responsible for the condition of this sidewalk due to the fountain was referred to the third ward aldermen.

**Protest a Sewer Payment.**  
The protest against paying the assessment on their property for the fixing of the Milwaukee street sewer, signed by G. H. Smith and Anna B. Baker, was read, it being directed to the mayor and council and Nowlan & Peters, who made the repairs. The communication alleged that the assessment was illegal, and was paid under protest to prevent a cloud on the title of the property. It was received and filed.

Alderman Smith explained that Captain Norcross could not now start the new arc lights, and on his motion the gas light committee were authorized to continue the oil lamps until Captain Norcross could start the arcs. Alderman Smith also stated that the committee had decided not report favorably on any of the petitions for lights until Captain Norcross' contract was in force.

Alderman Heddles, of the special committees having the hospital propositions in charge, reported in favor of appropriating \$500 per annum to the Oak Lawn institution, in consideration of the fact that the hospital be kept open for the injured and sick who have no home. The committee recommended that the money be paid quarterly in advance for one year from October 1, 1895, with the condition that if from any reason the hospital shall cease to be operated as a public hospital, the appropriation to cease with the amount paid at that date. The report was adopted.

**Chairman Heddles** of the water works committee, then submitted their report which is published elsewhere.

**Alderman Winslow** wanted the opinion of the city attorney in regard to the report, and Alderman Smith replied that the city's legal representatives had been present at each committee meeting.

**Many Orders Adopted.**  
The following orders were adopted: Alderman Smith—That the city clerk purchase five city maps; one for the mayor, three for the fire department and one for the city clerk's office.

**Alderman Heddles**—Providing for the payment of \$1,528.90 to the Merchant and Mechanics' bank from the gas fund; also \$2,071.87 from the fire and water fund; also that Academy street be repaired from Milwaukee street to the C. & N. W. railway tracks; also that sidewalks be built on Madison and Magnolia avenues.

**Alderman Hemming**—Providing for the payment of \$2,950 to the Pitts Agricultural Works for the steam roller.

**Alderman Burnham** asked if the records showed that the roller had been accepted. Clerk Badger said they did not. Alderman Burnham said that apparently the money was not due. Alderman Kathman said the committee had been given power to act. Alderman Burnham insisted that there ought to be some report to the council and that no such report had been made. City Attorney McElroy said that fact would not be an answer to a suit and after some more discussion the bill was ordered paid.

**Alderman McLean**—Making necessary repairs at the intersection of Pleasant and High streets.

**Charter Committee Named.**  
Alderman Smith said that there was a proposition to adopt the entire uniform charter before the council, and he moved that the mayor appoint a committee of six citizens and five aldermen to meet together with the mayor and city attorney, to investigate and report. The motion was adopted, and the mayor appointed committees as follows:

Citizens' Committee—Judge J. W. Sale, J. P. Baker, Richard Valentine, John Thoroughgood, Alex. Richardson, and S. A. Case.

Committee of Aldermen—Edward Smith, S. C. Burnham, S. B. Heddles, W. J. Hemming and E. R. Inman.

**Alderman Winslow**—An order for a tile culvert across Liberty street at Roger avenue; also across Vine street at Racine street; also repair Sharon street from the top of the hill east of Vine street; also that F. S. Winslow macadamize that part of South Bluff street in front of lots 3 and 4, Winslow's subdivision of the city of Janesville at his own expense, the city to furnish crushed rubble at cost, and if other property owners wish to extend said work permit be granted at no expense to the city.

**Other Orders Adopted.**  
**Alderman Stearns**—An order for a new sidewalk in front of lot 13, Butlers' addition.

**Alderman Hemming**—Providing for the payment of \$505.16 to Ryan & Brown, being balance due on bridge contracts.

**Alderman Inman**—An order for a block crosswalk across Racine street on east side of South Bluff street.

**Alderman Stearns**—An order for the block crosswalk across Bluff street on the east side of Franklin.

**Alderman Heddles**—An order directing the city clerk to request the several banks of this city to submit at the next meeting of the council a proposition upon their part to pay interest and the amount of such interest upon city deposits for the present fiscal year.

**WATER COMMITTEE'S REPORT.**  
Members Think the Company Should Name a Price On the Works.

To the Mayor and Common Council of the City of Janesville:

Your special committee, having in charge the water works matter, makes the following report:

We make this report, not that we believe there is anything for the council to act upon in the matter, but that the council may be kept informed of our proceedings. As we understand it, the council has directed this committee to proceed in such a way as to procure the annulment of the franchise now held by the Janesville Water company, and we have taken steps to that end, and the matter is proceeding as rapidly as possible under the circumstances. Your committee was solicited by E. M. Hyzer, attorney for the Janesville Water company and one of the stockholders thereof, for a meeting at which he could be heard. In a published interview Mr. Hyzer has stated that the committee solicited from the company a price at which the committee would sell its works. The committee did nothing of the kind. The meeting was solicited by Mr. Hyzer and was held only at his request. In that meeting Mr. Hyzer proposed that the committee examine the vouchers, etc., which matter has all been gone over, and that the city and the water company try to get at the cost of the works with a view to settling the trouble between the city and the water company. The committee informed Mr. Hyzer that if the water company wanted to settle the matter they must name a price at which the city could buy the works. The committee did not solicit a price, or say anything which anybody could possibly construe into a solicitation of a price. The city has been unfairly dealt with in this matter by the water company. The city has taken its position, and so far as this company is concerned, stands upon that position. We believe that the company has forfeited its rights, and that the courts will so declare. But we were willing and anxious, if the matter could be adjusted without litigation, that it should be so adjusted. We told Mr. Hyzer that if he desired to settle the matter there was no use of going over vouchers, bills, spending our time looking up the cost of the works, but the only way the case could be settled would be for the company and the city to agree upon a specific sum which the city would pay for the works. Mr. Hyzer strenuously objected to this method of settlement and stated substantially that he was afraid that they wouldn't name a price at which the city would buy; that the plant was very valuable. He also stated that the city ought to own the plant, and that the city could take the plant, pay the interest on the investment, pay the running expenses, and pay for the works without a dollar's cost to the city; all to be done out of the income of the works. In that statement the committee agrees with Mr. Hyzer. These profits are now going to the water company when they should go to the city. This company's entire property is assessed at \$20,100, whereas its annual income is more than that sum. Here is property claimed by the company to be worth

three or four hundred thousand dollars assessed at \$20,000—a property so valuable that the owners are afraid to own a price upon it—believing that it would be so large that the city could not possibly buy it. This assessment was the value, we are informed, which company placed upon the plant to the assessors. The city should own the works, but it should buy them at a proper price. There is but one way to settle litigation, and that is for the parties to agree upon a specific sum. Mr. Hyzer said that he would confer with the other owners, and he thought they would name a price; that they would either name a price, or decline absolutely to name one. Instead of naming a price or reporting to the committee that the owners declined to name a price, Mr. Hyzer transmitted a communication which is attached to this report and marked "Exhibit A." This communication is the one which has been already published by the water company with a statement of Mr. Hyzer's that he had made every effort for weeks to get a business investigation of this matter without litigation. The committee declined to give out the communication for publication until it had been acted upon. The Water company, following its usual course in this matter, caused the same to be published, as we believe, hoping to obtain some advantage in the eyes of the public. We again insist if there is any business way of getting at this difficulty, that business way is for the company to come out in a straightforward manner and say what they are going to take for these works, otherwise, let the city proceed as it has started. As for Mr. Hyzer's proposition, he says substantially that the Water company will do as it is compelled to do under the franchise, selling the works at cost, the only difference being that the cost shall be arrived at by arbitration. In other words the Water company proposes to have just as long by, just as cumbersome and just as expensive a lawsuit as can possibly be had, but they desire to determine what kind of a lawsuit it shall be. The courts are kept open and paid by the taxpayers for the purpose of transacting the legal business of the people. Arbitrators would have to be paid, and if there were three arbitrators in the case, and a number of attorneys, it would be many years before the matter would be finally disposed of. But we again desire to call the attention of the council and of all parties interested that the city is not now investigating the cost of these works, and for the purpose of present proceedings cares very little about the cost of the works. We say simply that the Janesville Water company has grossly violated its franchise, has forfeited all of its rights and that the city should take steps to have its rights annulled.

Now, with reference to the confiscation of the Janesville Water company's property, which has been suggested in a published letter by Mr. Hyzer, we have the answer to make, that if the Janesville Water company does not want its property confiscated, as it calls it, let it come up in one supreme, honest effort, and name a reasonable just and fair price for the works. If they cry out to the city for mercy let this corporation show mercy. If it is the desire on the part of the Water company that the city should not exact the pound of flesh, let the Water company show that it does not intend to exact the pound of flesh. Let them name an honest price for these works, and if they won't do it, let them take the consequences of a refusal. If they really desire to avoid litigation why don't they do business in a businesslike way and say they will take so much money for the works? That is the way to avoid litigation. It doesn't avoid litigation by appointing three arbitrators and trying a case before three men who can never agree upon the exact time they can meet together, but let it be tried before one arbitrator, a judge sitting in court, not upon the cost of these works, but upon the right of this company to continue its business. We call attention to the fact that the Water company made an effort to get up a petition to the common council to delay this proposed litigation. The effort, we are informed, was a complete failure, the people declining to sign any such petition. As the members of this committee meet citizens by the hundreds, we think we understand pretty well what the desires of the people and the tax payers are with reference to this matter. The people justly feel that the Water company has outrageously treated the city, it has been grossly unfair to it, has kept fraudulent statements and has had at no time any intention of treating the city fairly. If they could get this matter referred to arbitrators and drag it out for a number of years we have no doubt but what that would please them very much, and would be the most satisfactory thing they could ask for, except that the city drop the entire matter. Your committee has proceeded along the line heretofore laid down by the council, and we are proceeding in such a way as to protect the interests of the city, as we believe.

**THE QUEEN USES THEM.**  
What One Of the Highest Officials Says.

Queen Victoria Uses Proprietary Medicines.

And What Is More They Cure Her, Too.

Other Crowned Heads Use Them Also And Get Well.

People Have High Examples In Using These Remedies.

There never was a time when patent or proprietary medicines were so popular and so widely used by everybody as at present.

Years of experience have demonstrated the great benefit of these remedies. They cure; hence it is not a matter of wonder to learn through the most direct sources, that in her recent illness queen Victoria, the great Queen of England used and was greatly benefited by such a remedy. Other crowned heads have doubtless done the same. Thus we see that the wisest, those with the best opportunity to judge, and the rich in unlimited resources, are convinced of the curative qualities of these medicines. With ability to procure the best medical talent in the world, this renowned queen preferred a genuine remedy which had cured so many people, whose testimonials she had read.

Among all those which rare genius, after long years of study and experience, has discovered, there is none equal to Dr. Greene's Nervura blood and nerve remedy.

Kings, queens, noble and peasant, the high as well as the low, alike employ and are cured by this grand remedy, especially at his season of the year, when the blood and nerves require this purifying and invigorating medicine. Let others follow these illustrious examples. Don't make any mistake. Take Dr. Greene's Nervura blood and nerve cure. It is this you need. It is this which surely make you well and strong.

Mrs. Charles H. Heaton, residing at 143 State street, Montpelier, Vt., is of the very highest social position. She says:

"Two years ago we had a terrible experience with la grippe, and by overwork in taking care of my children and the results of the disease, I was left in a very exhausted condition, in fact was nearly prostrated. I was so weak that upon the least excitement I would feel nauseated. I was as near nervous prostration as anyone could be."

"Someone recommended Dr. Greene's Nervura blood and nerve remedy to me and I immediately began to use it. I am happy to say that it completely cured me. I think it is the best medicine I ever knew of for any form of nervous or chronic disease. I have recommended it to many and shall do so on every occasion."

If you are nervous, weak, tired, sleepless, if you have headache, indigestion, kidney or liver complaint, poor blood or weak nerves, you can surely regain your health and be as well as ever by taking Dr. Greene's Nervura blood and nerve remedy.

The strengthening and curative powers of this remedy are wonderful. Use it and you will be made well and strong. It is the discovery of Dr. Greene, the most successful specialist in curing nervous and chronic diseases. He can be consulted by all at his office, 35 West 14th St., New York City, free, personally or by letter.

**One of Our Departments.**  
School shoes for children is a special department with us. We have fine shoes for the little ones in many styles and grades. Can guarantee you satisfaction in three ways—price, goods and fit. We sell many shoes; our store is reliable, you know. A. Richardson Shoe Co.

**A BIG CROWD SAW THE FLAG GO UP**  
"RAISING" IN THE GESLEY DISTRICT NEAR BELLOIT.

John M. Whitehead of this City, One of The Speakers—Grain Trade in Milton is Good Despite the Low Prices—La Prairie Fair Rivalled The County Exhibition.

Beloit Oct. 8.—The flag raising in the Gesley district last Saturday was a success in every particular and the day was all that could be desired. At 12 o'clock "old glory" was raised by a delegation of veterans from Sargent Post Beloit, after which the multitude repaired to Gesley's grove where dinner was served. Comrade Barr kept up his record as a pie eater as usual. After dinner the program was presented as follows—Songs and recitations by pupils of the school, address by John M. Whitehead, of Janesville, who made an eloquent appeal for piety and patriotism. F. P. Starr was the next speaker who made a glowing plea for education and true patriotism. The next address was by David Throne who spoke in an earnest manner on the Puritans as grand examples of patriots. The program concluded with two patriotic songs by comrade Weirick of Shopiere.

**GOOD GRAIN TRADE AT MILTON**  
Fetherston & Bros. Handling Considerable Despite Low Prices—Other News.

Milton, Oct. 8.—Notwithstanding the low prices that prevail Fetherston Bros. are doing a good grain business, their shipment last week including three cars of barley and three of oats. For the first time since it was dug the big well of the railroad company is short of water and on Friday night Davy pumped it dry with the steam pump. H. P. Clark, the traveling man, visited Milton relatives Saturday. H. H. Harris and wife of Delavan spent Sunday with Mrs. Jane Walker. The railroad company have a new steel windmill and tower here and will put it up at an early date. Mrs. David Sowle of Marinette is visiting her sons, Isaac and William and other relatives. G. E. Boss and wife returned from the east Friday. They are the rear guard of the eastern pilgrims. Mrs. H. C. Curtis of Waupun, was the guest of her parents, Mr. and Mrs. William McEwan, this week. James Pierce went to Waushara county Monday, to dispose of some real estate. Janesville has secured a first-class teacher in the person of Miss Mamie Spaulding of this village. W. H. Bordon, M. D., has received his commission as a member of the Janesville District Pension Board.

**THE BIG "LA PRAIRIE FAIR"**  
The Names of Exhibitors Whose Articles Won Premiums

La Prairie, Oct. 8.—La Prairie Grange and the Ladies' Mutual Benefit society of La Prairie, held their annual fair at the Grange hall Sept. 28. The day was very windy and though it rained some in the morning the number of exhibits far exceeded any previous fair. The quality of the exhibits was fully up to the Rock county fair. The attendance was large, nearly all the hall could accommodate. Quite a number were present from adjoining towns and from Janesville. The number of entries were 342. Following is a list of the prizes: Grains, Vegetables and Fruit.

Cornelius Wilcox first on collection of vegetables, early potatoes, tomatoes, onions, muskmelon and watermelon. Mrs. Sarah Sherman first on apples.

## SKILLED LABOR SCARCE.

The leading organ of the iron and steel industry, referring to the urgent demand for skilled labor in that industry due to the marked revival, says it now appears to be absolutely necessary to devise further means of conducting manufacturing operations by labor-saving machinery if the supply of workmen cannot in some way be augmented. It also says that the highest grade of workmen cannot be recruited from abroad. "It must essentially be a home product, trained in American methods dominated by American ideas, and gifted with American ambition." But if we cannot have the home product and the evidence seems to be conclusive that it is not being supplied as rapidly as the demands of the market, under normal conditions require, why it is plain we will have to do the best we can with the foreign product. Obviously what is needed is greater freedom for the American boys to learn mechanical trades. Perhaps very few would counsel a return to the old apprentice system, now virtually extinct, and in any event it would probably be impossible to restore that system, but it is practicable to remove some of the restrictions which prevent thousands of intelligent and ambitious boys from learning trades, and only those who are prompted by utter selfishness will make any objection to this being done.

## HOW TRAMPS ARE MADE.

A rally of tramps near Madison is described by Josiah Flynt in the current Century. Mr. Flynt, who professes to know whereof he speaks, asserts that the great mass of the army of tramps take up that life voluntarily and from choice, and that almost to a man they have been inmates at one time or another of the reform school or the jail. The newcomers in the field of trampdom are, he says, nearly all sturdy young men who, if they were only so disposed, could earn an honest living. This explanation of the origin of tramps must take some of the glamour away from the business. It must also remove the strongest grounds for sympathy upon which the professional tramp has played. People who turn tramps because they want to be tramps have not much claim for assistance in their pursuit.

The council was wise in deciding against any hasty changes in the charter. Whatever is done should be done with deliberation. The committee now in charge is one that may be trusted.

This will be a blue year for populism out there in Kansas. The state has had enough of Mrs. Lease and Peffer, and republicans and democrats are uniting against the common foe.

## SOME FACTS

Relating to a Valuable  
Discovery

Which It Is Claimed Will  
Cure Every Form of Piles.

Interesting Statement of a Well-  
Known Druggist of Ypsi-  
lanti, Mich.

Mr. Frank Smith, the well-known and popular druggist of Ypsilanti, Mich., in speaking of the Pyramid Pile cure, says: "A year ago I sold C. C. Potter, 119 Hamilton street, Ypsilanti, Mich., a box of the Pyramid Pile Cure. He made the following statement to me to-day: 'I have been troubled for twenty years with itching piles. Have tried nearly everything that promised relief, but got very little help until one year ago I called on my druggist, Frank Smith, and got a box of the Pyramid Pile Cure. The one box used according to directions was, in my case, a perfect cure as a year spent without any symptoms of the trouble has convinced me.'"

The Pyramid Pile Cure not only gives instant relief in every form of piles, but the relief is permanent. The piles are cured and stay cured, and whether itching, protruding or bleeding piles, the results are equally satisfactory. It is rapidly taking the place of ordinary salves, ointments and lotions, as well as surgical operations; first, because it cures, and further because it is cleanly, convenient, painless. One can use it and go about his daily occupation, as it is applied at night and no attention is required during the day. Furthermore it is absolutely safe, containing no opium, cocaine or mineral poisons so common in ordinary pile cures. Send to the Pyramid Drug Co., Albion, Mich., for a treatise on cause and cure of piles and hundreds of testimonial letters from people who have tested the Pyramid and found it a complete cure, or better yet, ask your druggist for a package and give it a trial. Sold everywhere at 50 Cents and \$1.00 per package.

## TWO FLEEING WOMEN ARE FINALLY FOUND

MRS. DERHAM AND MISS MEDLAR ARE LOCATED.

Police Get Track of Them at Darlington and Held Them Until a Rockford Officer Arrived—Party Went Through Janesville This Morning—Both Ladies Were Indignant.

Two smiling ladies sat in a Chicago, Milwaukee and St. Paul passenger coach at the Janesville depot this morning, and chewed and chewed—gun.

Across the aisle sat two men—who got no smiles so far as the trainmen were able to distinguish.

The ladies were Mrs. Derham and Miss Medlar of Rockford.

The men were Mr. Medlar, father of the girl, and "Myque" Goldin, the famous French police officer also of the Forest City.

They were making a home run—Rockford is now ball crazy these days—and Officer Golden, who used to be a base ball player himself before he ornamented a Rockford policeman, was the cause thereof.

Mrs. Derham and Miss Medlar are the two women who upset the Forest City by running away some days ago. When they left that city, the police notified the police of all the other cities between Chicago and St. Paul to arrest "a lady with a banjo," Mrs. Derham carrying one of these instruments with her.

Changed Cars Here.

But the ladies were pretty smart themselves, and they were not so easily caught. Chicago and Milwaukee were thoroughly searched, but without success. Then came a telegram from Darlington saying that the women were there. Chief Bargren, of the Rockford force, telegraphed to hold them, and sent the French policeman with the blonde mustache and sunny smile, to that city. Mr. Medlar going with him. They found the women at that city and this morning started for Rockford. They arrived here on the Monroe train and changing cars were soon whirling away towards Rockford.

The two ladies had the Chicago and Milwaukee papers and were reading them with interest when a Gazette reporter stepped into the car. Mrs. Derham wore a neat blue dress while her younger companion was dressed in the height of fashion. Officer Golden however, wore plain citizens clothes while Mr. Medlar's chief characteristic was a look of determination.

Both Were Indignant.

The two ladies were very indignant over the reports in the Chicago, Milwaukee and Rockford papers in regard to them. Mrs. Derham denies that she has any influence whatever over Miss Medlar and says that they left home to go on the stage and have some fun. She claims to have left home some three hours before Miss Medlar, and came to Janesville, where the other joined her. They registered at one of the hotels here, they claimed and said that the Janesville officers came in and sat by them but failed to recognize them.

Miss Medlar says that her mother has always intended that she should go on the stage, and says they now have an engagement with a theatrical company under consideration.

Both women seemed to be enjoying the sensation they have caused and say they will leave home as soon as they get out of this scrape. They went to Darlington to get a friend of Mr. Derham's to go to Milwaukee with them, and have been there since last Friday evening.

They Had a Fine Time.

Both women say that they have been having a fine time and would do it again if they had a chance. They have not been in either Chicago or Milwaukee but say they have been on the stage.

In speaking of the Rockford police force Mrs. Derham said that they had enough evidence to expel one officer from the force and talked vaguely of putting some one behind the bars. Mrs. Medlar says that if Mrs. Derham goes to jail she will go, too.

Mr. Derham, however, told the Rockford officers that he would never live with his wife again. He also insinuates that his wife took \$450 in pension money from his safe before she left Rockford.

Chief Acheson was notified on Friday to watch out for the pair, but did not see anything of them either at the depot or at the hotels. The description given of them was minute, and if the ladies had not kept under very close cover here, they would have been seen. The local officers think they merely changed cars here, and were lost sight of in the crowd that came down from Edgerton to see their ball nine eated up by the Dubuques on that eventful morning.

THE Ladies' Aid Society of the Baptist church will meet for work in the parlors of the church Wednesday, from 10 a. m. to 4 o'clock p. m. The ladies are expected to bring lunch and remain the noon hour. Let there be a large attendance, as there is much work to be done.

WHEN you meet a woman with a broad grin and a pair of new shoes, you can set it down that the shoes come from Brown Bros. & Lincoln's and the smile went with them. A bargain goes farther toward making a pleasing countenance than almost any other influence.

ALL reverence "The Old Homestead." Some or much of it is a fond part of every city man's life. That part is a sweet and graceful recollection, and often is the retrospection as tearful and tender. Human feeling has been taken from human hearts to make "The Old Homestead" and it is a play that will always remain popular. Don't miss it at the opera house tonight.

## 'PHONE CREW HERE TO FINISH THE LINE

TWO MILE GAP TO BE CLOSED 'UP SOON.

Superintendent of Construction T. J. Gallagher is in Charge and They Will Rush The Work—Manager Willits and Electrician Shottle Are Out on a Long Ride.

The long distance metallic concert telephone line will soon be completed. Superintendent of Construction Gallagher and his crew arrived in the city today from La Crosse and work will be begun on the Whitewater line near Johnston. The work will be in charge of Foreman Thornton and when that line is completed, the crew will then direct their attention to the Beloit line and the two miles of wire lacking in that direction will soon be put up, thereby completing the circuit.

Fifty miles of wire, all on one circuit, which includes the cities and towns of Monroe, Juda, Orford, Evansville, Brodhead and Albany must be carefully inspected before cold weather sets in. This is the order that Manager Willits received from headquarters, and a crew started out this morning in charge of Electrician Shottle and Manager Willits, expecting to drive the entire distance. The work will take a week at least.

Electrician Charles Bigley, of this city, went to Lake Koshkonong this morning to put in a telephone in the Peck residence at the lake.

## POTATOES SO CHEAP THAT RAISERS LOSE

BOTTOM GOES OUT OF THE TUBER MARKET.

Merchant Who Only Paid Nineteen Cents Thinks he Made a Mistake. While One Farmer Hauled His Load Back To Be Used as Hog Feed

Potatoes are dirt cheap and a local groceryman who has just stocked up for the winter by buying two hundred bushels at nineteen cents a bushel thinks perhaps he made a mistake.

They were northern grown tubers," he explained, "I have recently returned from a trip in the northern part of the state and potatoes are being sold for next to nothing; the very finest specimens selling at ten cents a bushel and it is hard to find buyers at that price, although a great many are being sold to starch factories. I think, however, that the supply in Rock county alone will more than supply the demand."

Large quantities of potatoes are being brought in these days and a number of wagon loads arrived today from the vicinity of Darien. One La Prairie farmer who drove in with a load this morning was disgusted with the smallness of the market price and drove home again saying that he would let them go for less than twenty cents a bushel.

### Wearily and Worn.

When the tired, factory operative, the weary outdoor laborer, the overworked bookkeeper or clerk seeks a medical recompense for expenditure of bodily force, where shall he find it? Could the recorded experience of thousands of workers be voiced, the verdict would be that Hostetter's Stomach Bitters renews failing strength, stimulates the faded mental powers to fresh activity, and relaxes undue nervous tension as nothing else does. Digestion, a regular habit of body, appetite and sleep are promoted by it, and it is an admirable auxiliary in the recovery of health by convalescents. A fastidious stomach is not offended by it, and to persons of both sexes in delicate health who occasionally feel the need of an efficient tonic, the whole range of the pharmacopoeia and the catalogue of proprietary medicines does not present a more useful, safer or more decisive one. It is also incompressible for fever and ague, rheumatism and kidney troubles.

### HOW TUBING IS MADE.

Ponderous Machinery Used In the Cold Drawn Process by Bicycle Makers.

One of the most important parts of the bicycle, because it is the most in evidence, is the tubing. The manufacture of tubing is now carried on to a large extent in this country, although it is but recently that the home production has reached a stage of perfection where it could successfully compete with that of the English concerns.

There are a number of methods of making tubing, but the one mostly in vogue at present is what is termed the cold drawn process, and it is of this style of tubing that the high grade machines are at present being made. The machinery required is ponderous, and the power required to draw out a piece of steel without heating it is another exhibition of the perfection of modern machinery.

There are a number of variations to the method employed, one of which consists of taking a piece of steel in the shape of a bar or ingot. This is bored through the center. It is then passed through a die, after which it is heated and treated to a bath in a secret preparation which removes the temper that the drawing process imparts. This is repeated a number of times, and each die used is smaller than its predecessor, with the result that the tube grows smaller and longer. This is continued till the tube is of the right diameter and gauge.—Chicago Tribune.

### Mrs. Simpson Can Steer.

A Mrs. Simpson was written up by Chicago papers as being fatally injured through riding into a coal wagon. Mrs. Simpson wrote a vigorous letter of protest to the papers, stating that she struck "a good sized bowlder" and went over, simply striking her elbow. Mrs. S. added, "I can steer well enough so as not to strike a barn, a load of hay or a coal wagon."—American Wheelman.

### When Your Saddle Is Broken.

Breakdowns to saddles are likely to happen on long rides. If the injury cannot readily be repaired, the saddle can usually be re-enforced by placing the coat beneath the leather. Thus comparative comfort will be insured.—New York Tribune.

### Monthly Meeting.

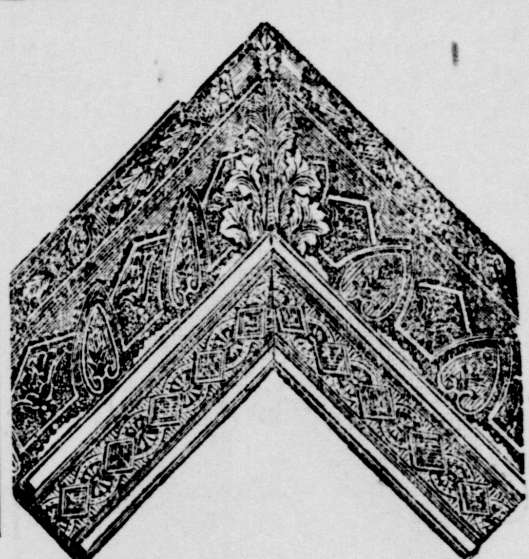

The monthly meeting of the Union Catholic League will be held at the League rooms tomorrow, Tuesday evening, at 7:30.

It must be some consolation to a woman for her to know that thieves take less kindly to her mount than they do to that of her brother.

The Berlin Ladies' Bicycle club has adopted a uniform consisting of Eton jackets, tight fitting knee breeches, white vests and white polo caps.

### Drop Forgings For Wheels.

The machinery for drop forgings is ponderous and expensive. The plates that stamp out the forgings are in two sections, one of which fits into the bed of the machine, and the other is fastened to the arm. Together these two plates have an opening the shape of the desired forging. The descent of the arm on a piece of tool steel stamps out a piece of the requisite shape. After leaving the forging machine the metal is in a rough state and has to be turned down on a lathe and bored out, each of which operations has to be carefully done, as the finished article has to be exact in every particular.—Chicago Times-Herald.

### PERHAPS THIS MAY HELP YOU.

"My food does me no good," you say. Then it does you harm. There is no halting place between these extremes. Digested food alone gives health and strength. Undigested food sours, or ferments, in the stomach and becomes a poison to the whole body. It causes headache, heart palpitation, liver and kidney trouble, distress after eating, pains in the chest and side, and the tired, languid, heavy feeling we hear so much about. When the digestion goes wrong every function of the body goes wrong. Yes, and the mind, too. Men fail in business and die poor for no other reason than this—they are weakened, dulled and stupefied by dyspepsia. The lives of a host of women are blighted in the same way. You may be one of the miserable multitude. The writer of these lines was one of your number a short time ago. I tried dozens of things to get cured; just as you have done, no doubt. The thing which at last succeeded with me may succeed with you. It is a discovery of those wise and good people—the Shakers, of Mt. Lebanon, N. Y.—called the Shaker Digestive Cordial. It is not a purgative which at best only gives transient relief. It is in itself a digested food and also a corrector of the digestive functions. You can eat and digest your food while taking this cordial. It helps you at once and soon makes the stomach vigorous and healthy. It is not like any other so-called dyspepsia cures. It is prepared by the Shakers principally from herbs cultivated by them. They do not ask us to spend a dollar for a bottle while we are in the dark as to its virtues. They take that risk themselves. Almost any druggist will sell you a trial bottle for ten cents, so you can see whether it is what they say—and adapted to your case. And isn't even the MERE CHANCE of a cure worth that much?

## A SPECIALIST'S VIEWS.

Obscure Ailments That Affect Humanity.

An Eminent Specialist's Idea on the Kidneys and Their Uses. How They Purify the Blood and Keep Us In Health.

Curing the Kidneys Makes Us Well When We are Sick.

We are often sick and don't know what is the matter with us. It is probably our kidneys.

We lose our strength and ambition, suffer from headache, dizziness, sal-low complexion, nervousness, etc.

We need new blood.

We don't get it, because our kidneys are sick.

If we cured our kidneys we would get new blood, new health, new strength, because it is our kidneys that purify our blood.

Dr. Hobb's Sparagus Kidney Pills will cure the kidneys.

They contain a concentrated extract of the Asparagus found in no other medicine or prescription, and made only under special process by the Hobb's Medicine Co.

This extract of Asparagus is what makes Dr. Hobb's Sparagus Kidney Pills so successful.

A well known physician, Dr. William Watson Hinsh, made a careful and thorough test of Dr. Hobb's Sparagus Kidney Pills in his practice.

Here is his report on the results:

Office of William Watson Hinsh, M. D., 926 Chicago Opera House Block, Chicago, July 20, 1895.

Hobb's Medicine Co.—Gentlemen: It affords me unqualified pleasure to report that after having at your solicitation tried the Sparagus Kidney Pills which you have recently introduced to the profession, I am entirely satisfied with the results obtained.

As is well known the kidneys are the principal excretory organs of the body, and I have long been satisfied that many of the obscure ailments which afflict humanity are traceable to kidneys which fail to properly perform their functions.

Until now I have tried, and used with varying degrees of success, all the different remedies which are alleged to have a specific action upon the kidneys, but have never found anything that was entirely satisfactory until I began the use of Sparagus Kidney Pills.

I think you are to be congratulated upon having been able to produce a combination of remedies with such a happy effect, and I take pleasure in recommending your pills to my brother practitioners, who, I am sure, will find in them a remedy that will fully meet the indications presented in all diseases of the kidneys, as well as in all diseases which owe their origin to, or which depend upon, an unhealthy condition or action of the kidneys.

Yours Very Truly,  
W. W. HINSH.

Dr. Hobb's Sparagus Kidney Pills will cure all kidney diseases and all diseases of the blood.

Bright's disease, diabetes, congestion, etc., rheumatism, gout, etc., can all be cured by Dr. Hobb's Sparagus Kidney Pills.

A few doses will relieve. But that is not all. A few boxes will cure.

And the best of it is that the cure will be permanent.

Sold by all druggists or mailed, prepaid, for 50 cents a box.

In two colors, Black and Brown; which is as pretty a cut coat as you ever saw, and we are going to make the price \$15.

NO. 61.

This coat is like cut No. 61, made 44 inches long, (the fashionable length,) with a heavy Cassimere lining and heavy Satin sleeve linings. No better could be produced to sell at \$18 to \$20. The cloth in these Coats is made by the Rock River Woolen Mills, of Janesville and is one of their celebrated All Wool Meltons. The color we will guarantee to be the very best and the wearing qualities of the cloth cannot be surpassed by any other cloth made. We believe the Rock River Woolen Co. will bear us out in this statement. The Coats will be displayed in our show window tonight. Try and see them if you can.

## No. 14,492

Is a Round Corner Sack Coat, like figure in Cut No. 28, made of superior quality of Imported Cheviot in a gray effect with swab plaid. Very pretty. Coat and Vest linings are of a heavy Twill Serge and made with a narrow stitch edge, will wear like Buckskin, will not show soil and withal very stylish. No better business suit. Price, \$13.50. Sample displayed in show window.

NO. 28.

No. 14,388 is a plain Jet Black Thibet cloth Cutaway like figure in Cut 28 and is a very safe suit to buy as it wears like iron and will keep its color. Tade throughout with silk thread. We believe in honest, well-made goods and recommend this one.

Nos. 14,323, 14,498 and 14,446 are Child's Suits in Scotch Cheviot at \$5 and are beautifully made and equal in quality to suits we sold last year at \$6 and \$6.50. If interested in good clothing for children see these numbers.
